An MRL is proposed for each commodity included in the listed crop groupings in accordance with the *Residue Chemistry Crop Groups* webpage

(<https://www.canada.ca/en/health-canada/services/consumer-product-safety/pesticides-pest-management/public/protecting-your-health-environment/pesticides-food/residue-chemistry-crop-groups.html>) in the Pesticides and Pest Management section of the Canada.ca website.

7. Objective and rationale: food safety, animal health, plant protection, protect humans from animal/plant pest or disease, protect territory from other damage from pests.

8. Is there a relevant international standard? If so, identify the standard:

Codex Alimentarius Commission (*e.g. title or serial number of Codex standard or related text*):
